RE: Organization XYZ – Request to become a Permanent Member of the EECTF

Dear Chairman,

Based on our participation at the Plenary Meeting of the European Electronic Crime Task Force and our shared objective of creating a strategic forum for the analysis and development of best practices against cyber crime in European countries, it is with great interest that I formally request that Organization XYZ becomes a Permanent Member of the aforementioned Task Force.

To this purpose, I accept to comply with the EECTF Modus Operandi and I'm aware that a Permanent Member is asked to contribute, on a voluntary basis and according to its own capabilities and available resources, to the growth of expertise and knowledge of the Task Force, sharing information under a non disclosure agreement, interacting in a non-competitive environment with all the other Permanent Members, participating to the periodic Expert Group meetings, eventually being involved as a speaker at the Plenary Meetings and taking active part to the development of research projects and other activities planned by the Founder Members.

I believe that Organization XYZ has a great deal to contribute and to gain from participation in this venture and I look forward to receiving your positive response at the earliest opportunity.

Yours faithfully,
